Prevention better than cure: Motsoaledi

South Africa's healthcare model needs to shift from being "hospi-centric" to more preventative if the country is to win the fight against the burden of diseases, Health Minister Aaron Motsoaledi says.

Cancer affects us all...

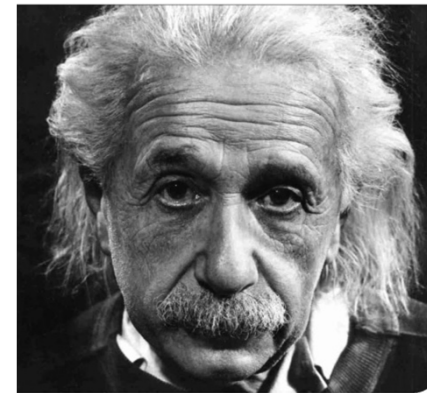

What can we do?

-  Fight smoking
-  Vaccinate against viruses
-  Ban bad chemicals
-  Promote healthy eating, drinking
-  Beware of UVA and UVB

- Prevention is the cure of cancer.

Intellectuals solve problems; geniuses prevent them.
