

## Successful Research Grant Applications for 2014 funding

| Researcher          |            |        | Institution                     | Project Title   | Amount Awarded |
|---------------------|------------|--------|---------------------------------|---|----------------|
| Edkins              | Adrienne   | Dr     | Rhodes University               | <i>Analysis of stem-cell associated genes in breast cancer as biomarkers and predictors of cancer malignancy</i>                      | R150 000-00    |
| Gelderblom          | Wentzel    | Prof   | Medical Research Council        | <i>Chemopreventive potential of Rooibos in skin carcinogenesis</i>  | R86 250-00     |
| Joubert             | Fourie     | Prof   | University of Pretoria          | <i>An investigation into genetic variation in South African breast cancer patients using genome sequencing</i>                        | R105 000-00    |
| Jansen van Rensburg | Lizette    | Prof   | University of Pretoria          | <i>Breast/ovarian cancer susceptibility in South African women: Role of DNA homologous recombination genes</i>                        | R49 625-25     |
| Loos                | Ben        | Dr     | University of Stellenbosch      | <i>The preventative abilities of a ketogenic diet and intermittent fasting in relationship to the carcinogenesis of astrocytoma</i>   | R137 550-00    |
| Moodley             | Jennifer   | A/Prof | University of Cape Town         | <i>Pathways to breast cancer presentation</i>   | R88 125-00     |
| Pillay              | Viness     | Prof   | University of the Witwatersrand | <i>Drug-loaded Nanomicelles Conjugated to Mucin Antibodies for Direct Targeting of Ovarian Cancer Cells Expressing Mucin Antigens</i> | R120 000-00    |
| Prince              | Sharon     | A/Prof | University of Cape Town         | <i>Overexpression of the T-box transcription factor, TBX3, as an early marker of sarcomas</i>   | R130 500-00    |
| Storbeck            | Karl-Heinz | Dr     | University of Stellenbosch      | <i>The identification of novel biomarkers for prostate cancer</i>   | R150 000-00    |
